I am

abusing freedesktop.org

with this talk

am I really?

not a talk about

many things...

this is about

thinking together

raising awareness

fostering communication

ready to go?

cross-desktop platform

data/"behavior" sharing

specifications

code sharing

libraries, services

why

does it matter?

why

This is the important slide.

does it matter?

why

does it matter?

just one example

oh, wait, another example!

aren't we

already doing this?

reactive vs proactive

collaboration by default
